Skills and Tools

Mathematics, statistics, machine learning, theoretical computer science: Graduate topics.

Programming languages: Python 3 (CPython, **PyPy**), C (with **ctypes**), Javascript (DOM), Java, OCaml...

Software / Libraries / Tools / Technologies

- Communication: Markdown, **pandoc**, LaTeX, Beamer, Microsoft Office Suite.
- UNIX development: admin, console, **make**, **git**.
- Mathematics-oriented programming: **NumPy**, **SymPy**, **SageMath**.
- Data science: **scikit-learn**, **pandas**, **h5py**.
- Deep learning: **Keras**, **Tensorflow**.
- Web: search, scraping, automation, development (Bootstrap, Flask), servers (nginx), hosting, DNS.
- Cybersecurity / Network / Reverse engineering: Chrome Developer Tools, mitmproxy, Wireshark, ncat (& nmap), Kali Linux (**aircrack-ng**, **BeEF**, **Metasploit**...), decompilation (AS3 P-code, x86 assembly)...
- Miscellaneous: Blockchains, **Ethereum**, SQL, NoSQL, ORM, regular expressions, **Cython**, Graphviz...

Education

- 2015 - 2019** **Ingénieur Polytechnicien** - École polytechnique (Palaiseau)
*Majoring in computer science and mathematics in France's top scientific school.
Youngest candidate accepted (became senior bachelor student when 17 years old).*
- 2017** **Philosophy BA** - Paris Nanterre University
- 2013 - 2015** **Classe préparatoire aux Grandes Écoles MPI** - Lycée Louis-Le-Grand (Paris)
- since **2007** **Music** (piano, harmony, analysis, conducting and other topics) - Conservatoire de Paris

Experience

- 2018** **Deep Learning Research Intern** - **ENS Ulm** / **EHESS** / **CNRS**
*ABX-discriminability measure to evaluate unsupervised computer vision models
Supervised by **Ronan Riochet** and **Emmanuel Dupoux***
- 2017** **Study on Digital Identity in France**
*Study commissioned by the French Ministry of the Interior's Centre for Advanced Studies
(**CHEMI**) and carried out along with the ENS-Ulm (Prof. David Naccache) and the **FITS**.*
- 2017** **e-FICC Quant Researcher** - BNP Paribas CIB, London
- 2017 - 2018** **Founder & Head of BADaS** (*Binet Algorithmes et Data Science*)
Student association for **competitive programming**, **data science** and **CS events**
- 2016 - 2017** **Oral examiner in mathematics** - Lycée Louis-Le-Grand (Paris)
- 2015 - 2016** **Administrative analyst** - French Ministry of Foreign Affairs

Awards

- **ACM ICPC SWERC** (2016, 2017): Competitive programming competition among the universities of the world. Captain of Polytechnique's team that ranked 21 amongst 77 European teams in the regional contest.
- **Concours Général** (2013): Most prestigious academic competition in France. Distinction in Mathematics, youngest laureate of all subjects.

Others

- Languages** French (native speaker), German (Goethe-Zertifikat C1), English (TOEIC 990/990).
- Music** Piano: winner of international contests, concert soloist with orchestral accompaniment.
- Sports** Horse riding, Skiing, Swimming, Scuba diving.
- Hobbies** Literature, Philosophy, Competitive programming, Anime, Video games.
-
